

TxDOT/HAS Dimond Knoll Screening Project – March 14, 2013  
Bulletin #1

Screening with observers – The resident herd!

Another point

First point of the day

We had some excitement when two of the resident cattle got out of the pasture. Our three archeologist/cowboys herded 'em back in – Gary McKee (left), a THC Steward from Fayette County, Debbie Eller, with BAS (and evidently an experienced ranch hand!) and our own Louis Aulbach, HAS Vice president. Never a dull moment at this project!

Debbie Eller from Brazosport Archeological Society and her grandson drove all the way from Nederland to screen with us!! He had such a great time and found so many artifacts he didn't want to leave!!!

Outhouse – occupied!
