

TxDOT/HAS Dimond Knoll Screening Project – Sept 7, 2013  
Bulletin #23

We only screened dirt on Saturday, September 7th this week but still we recovered some interesting artifacts. We had 13 people at the site on what was another hot and humid day!! Well done to all those folks who turned out.

It was a hot and humid day but those shades really helped to keep us cool

Jim Horner and his son Ryan were at the screening site again

New member Gigi Jamison screens with Tom Williams

Paige Hill found this artifact in her screen

Dr. Jason attacks the dirt pile. The lack of rain was causing the dirt to become rock hard again

Some of the artifacts that were found on Saturday 7th
