

TxDOT/HAS Dimond Knoll Screening Project – Sept 28, 2013
Bulletin #25

We had a terrific screening day on Saturday 28th September, 2013. 14 people turned out and we found more artifacts than the previous couple of weeks put together. The highlight of the day was finding both pieces of a broken point – the pieces turned up in different screens!!

The crew gets off to an early start

John Mancha shows off the point he found

Charlie Aulbach and Angela Rippley wait for Dr. Jason to deliver them some dirt

Beth Aucoin, Tracy Connell and Pat Aucoin enjoy their screening

John Mancha, Genevieve Kitterman and Louis Aulbach at their screen

John Rich finds yet another point

TxDOT/HAS Dimond Knoll Screening Project – Sept 28, 2013
Bulletin #25

Recent new member Laurinda Schweers works with Bob Sewell

This was obviously a really nice size point in its day !

Dr. Jason Barrett shows off a lanceolate point found on Saturday 28th

Carol Roberts with Beth and Pat Aucoin

Louis Aulbach displays his find, as John Rich and Genevieve Kitterman look on

Selection of artifacts found on Saturday 28th September 2013.
Note the point with the matching halves (bottom row, 2nd from right)
