

TxDOT/HAS Dimond Knoll Screening Project – April 20, 2013
Bulletin #6

We had a large crew out at the screening site on Saturday, April 20. Several HAS members plus many guests of our PI, Jason Barrett and his wife Jenny Brevorka, spent an idyllic day searching for artifacts.

Our youngest archeologists show off their finds.

It was a banner day – many points, knives and other artifacts. Check out the 5 inch blade on the left found by Tom Williams!

Jenny Brevorka, left, shares a screen with some of her friends.

Jason's fellow TxDOT archeologist Chris Ringstaff came down from Austin to put on a flintknapping and atlatl throwing demonstration for us. He was great!!! We must have him back for an HAS program.

Dr. Jason Barrett, our PI, and Chris Ringstaff screen with some of our guests for the day.
