

TxDOT/HAS Dimond Knoll Screening Project – Sept 14, 2013
Bulletin #24

We had another great screening day on Saturday 14th September, 2013. We had a smaller number of folks than last week but we found some interesting artifacts and had lots of fun! Many thanks to everyone who came to screen.

Kathleen Hughes, Kristen Jovoll, and Jim Horner work hard at their screen.

Michael Vaccaro and Christine Stigale were at the screening site

New member Genevieve Kitterman and her mom Christine

Genevieve Kitterman found a nice projectile point just before we were breaking for lunch

The excitement when we find an artifact is still going strong after 7 months of screening!

Some of the artifacts that were found on Saturday 14th
