

TxDOT/HAS Dimond Knoll Screening Project – March 29 - 30, 2013
Bulletin #3

Some of the artifacts found in Pile 10 on Friday, March 29, 2013

Kathleen Hughes with one of the points from her screen on Friday.

The faithful crew moved back to Pile 1 on Saturday, March 30, 2013

Cleaning artifacts from the screening site

.... And we were rewarded with some nice artifacts.

After the artifacts are cleaned, our PI, Dr. Jason Barrett, teaches HAS members how to identify some of the points we've found at the Dimond Knoll site.
